

# safe and secure

## Protecting what matters most with digital video security.

In a world that faces security challenges every day, protecting people, property, and possessions is critical. That's why Honeywell combines the quality and reliability of our products to create powerful security solutions. From cameras and domes to digital video recording and high-end matrix switching systems, Honeywell installs integrated video and surveillance systems around the globe. But that's not all, we're taking the latest in IP-network, data management, and mobile technologies to offer our customers the protection they need. It's what matters most at Honeywell. And it's how we're building a world that's safer and more secure.
