

evolution

New advances in technology mark the evolution of integrated surveillance systems.

Honeywell's unique and patented video analytics software, Active Alert®, Smart Impressions® and People Counter, is now fully integrated with our industry-leading Fusion and Rapid Eye™ Multi-Media Series DVRs. It's an all-in-one embedded analytics solution that sees, analyzes, and triggers alarms as needed. Just like having security staff covering every person, every object, and every inch of your perimeter—every day of the week. It's what we call the evolution of security—and we're making it better, faster, and smarter. Evolve with us. And revolutionize your security today!
