

clear signal

The signal is clear — catch stop-arm violations with Honeywell's all-digital mobile video systems.

Get a clear signal from every angle with the Honeywell HTRD400 Series digital video recorder. It captures sharp, crisp images and clear audio, and is capable of connecting up to four cameras for the ultimate in mobile video surveillance. And thanks to Honeywell's exclusive Shock and Vibration

Reduction technology that maintains data protection even during the roughest events, the video reliability can't be beat. From crime deterrence to quality video for analysis, the choice is clear — Honeywell is security in motion.
